RotoSpa

## For life, luxury and longevity

In our hectic lives it's important to take time for ourselves and to relax – but you don't have to jump on a plane – for the ultimate in relaxation step into a RotoSpa and immerse yourself in the warm massaging water. We specialise in hot tub spas and cater for all your aftercare needs, with water care products, service and maintenance. Our focus is on great customer service and we'll ensure you get the spa that's right for you at the best price!

A man and a woman are relaxing in a hot tub. The man is holding a glass of champagne and looking at the woman. The woman is also holding a glass of champagne and looking at the man. They are both smiling and appear to be enjoying their time. The hot tub is surrounded by lush greenery and a stone wall. Two white towels are rolled up on the stone ledge next to the hot tub.

**...for the ultimate in relaxation,  
step into a RotoSpa...**

# Why RotoSpa?

## Health benefits

The hydrotherapy action of our spas can **improve circulation** and purify toxins. Immersion in bubbling water reduces body weight by 90%, taking the pressure off tired aching muscles and joints. **It improves mobility** and helps relieve some symptoms of rheumatism and arthritis.

**Our specially situated massage jets** and clinically developed hydrotherapy system aid in reducing 'stress' hormones, restoring a feeling of tranquil well-being and encouraging **a restful nights sleep**.

Spa set up has never been **easier** and economical running costs mean you can enjoy your spa any time – simply whisk the cover off and immerse yourself in water temperatures of up to 40 degrees – **a fantastic feeling** after a long day, particularly in winter months.

## Portable spa pools

RotoSpa UK are renowned for the design and manufacture of hard wearing spa pools. We are undoubtedly the market leaders in affordable, portable spa technology offering the only truly portable, smooth, high performance, low maintenance spas at low prices without compromising on quality in any way. This is down to the material chosen to manufacture these shells, polyethylene.

Polyethylene is extremely durable and virtually indestructible. It is recognised for its strength and ability to hold its shape. Structurally, it is much stronger than a traditional acrylic spa and other than a quick wash of surfaces, there is zero maintenance required of the shell. Polyethylene is recognised as a leading heat insulator, it adds energy efficiency to your spa.

ROTOSPA SPA POOLS  
automatically treat

of waterborne  
bacteria & viruses

## A totally unique spa

- **UK's only spa pool manufacturer** – designed and built completely in the UK with nationwide support. RotoSpa is committed to buying locally and supporting our local economy. As we have less shipping costs, we have the lowest environmental impact of any spa in the UK market, offering maximum quality at the lowest costs.
- **Anywhere spa** – purposely designed for easy access, meaning no crane or foundations required so if you decide to move you can take your spa with you.
- **Plug and play** – RotoSpas are powered from a standard household electricity supply, meaning no expensive electrical work required.
- **Tonka Tough** – RotoSpas are much stronger than a traditional acrylic spa shell. They are designed for the unpredictable UK climate.
- **Reducing overall chemical usage** – RotoSpas inbuilt ozone purification and auto cleanse smart filtration system produces additional natural disinfectant, providing sanitisation and reducing costs.
- **Sociable spa** – our contoured seating and atmospheric lighting create a fun entertainment environment.
- **Using leading components** – RotoSpa use premium suppliers who use leading technologies meaning world class reliability and efficiency.
- **Low running costs** – costing from just 70p a day to run. One of the most energy efficient spas on the market, providing affordable year round spa use. Our low shipping costs mean we have the lowest environmental impact of any spa, offering maximum quality at low prices.
- **Environmentally and economically friendly** – PowerSmart heat pump slashes heating costs with 75% less energy consumption with our integrated heat pump solution.
- **Wireless Remote for your spa** - take control of your spa locally or remotely via a network connection. The SpaLink app for your device acts as a wireless remote for your spa, enabling control over all RotoSpa accessories including pumps, air blowers and temperature from anywhere in the world! The app allows complete control as if you were stood in front of the RotoSpa itself.

The Duo Spa is a stylish, affordable 2-3 person spa. Its compact design, smooth finish and flowing lines ensure it will complement your life and garden, patio, or balcony.

It boasts two full depth naturally reclining positions and benefits from a world class hydrotherapy system. The distribution system delivers water to each jet at uniform pressures. Combinations of the latest adjustable therapeutic, rotating massage jets have been strategically positioned to give various massage effects. Alternative systems include neck and shoulder combinations with lower, middle and upper back, plus leg and foot massage.

The optional turbo air injection system adds millions of tiny air bubbles into the water around your body, legs and even under your feet for a more invigorating massage experience.

We bought our tub almost 12 months ago. To say it has changed our life would be true. Instead of sitting in of an evening and watching TV we now have the pleasure of relaxing in the tub and talking to each other. We both have very stressful jobs and the hot tub is the perfect way to relax. We use the tub most evenings and would never want to lose the experience. One of the best purchases we have made in the last 10 years.

TIM VIGAR

I suffer from chronic arthritis. The warm water helps me tremendously. Movements that I normally can't do, I'm able to do in the spa. It relieves the pain and swelling and loosens up the joints. The other benefit is socially. When we have friends and family around, the spa is the first place they want to go.

MR D. EDWARDS

The jets are powerful, the filtration is brilliant and it's a breeze to clean and maintain. We really couldn't be happier and even though the weather is turning colder and the winter is coming we are still getting full use of our QuatroSpa - trust me it really heats up and maintains the temperature.
